

### **Akzo Nobel N.V. – Interim dividend for the financial year 2017**

The Board of Management of Akzo Nobel N.V. announces that the interim dividend for the financial year 2017 is EUR 0.56 per ordinary share with a nominal value of EUR 2.00 each.

The distribution will be payable either wholly in cash or in new ordinary shares out of the share premium reserve, at the option of the shareholder. A maximum of 40% of the total dividend amount will be available for stock dividend. Dividend in cash will be paid through deduction of 15% Dutch dividend withholding tax. If more than 40% of the total dividend is requested by the shareholders to be paid out in shares, those shareholders who have chosen to receive their dividend in shares will receive their stock dividend on a pro rata basis, the remainder being paid out in cash after deducting the above mentioned 15% Dutch dividend withholding tax.

Shareholders are given the opportunity from 24 October 2017 up until 15 November 2017 (3.00 p.m. CET) to indicate their choice. On 16 November 2017 after the close of trading on Euronext in Amsterdam, the number of share dividend rights of the ordinary shares entitling to one new ordinary share will be determined (the “Exchange Ratio”). This Exchange Ratio is based on the volume weighted average price of all traded ordinary shares in Akzo Nobel N.V. at Euronext Amsterdam during the period from 9 November 2017 up to and including 15 November 2017. After determination, the Exchange Ratio will be published on 16 November 2017.

The new ordinary shares are entitled to the special cash dividend as advance proceeds related to the separation of Specialty Chemicals, the final dividend for financial year 2017 and dividend for the subsequent financial years.

Dividend rights will not be traded on Euronext Amsterdam.
