

## **Quality, Health, Safety / Security and Environmental Policy Cellulosic Specialties**

### **We believe in focusing on our customers' future first**

- We strive for working with our customers to help them to reach their present and future objectives by providing the right solutions to their needs

### **We believe in embracing entrepreneurial thinking and the courage and curiosity to question**

- We continuously work to improve our products and services by setting challenging targets and making action plans that are followed up and evaluated.
- We encourage open communication

### **We believe in developing the talents of our people**

- We provide our employees with ongoing training and education

### **We believe in integrity and responsibility in our actions**

#### **Health, Safety/Security and Environment are key values for us**

- We are committed to sustainability and we strive to develop and produce products that create social, environmental and economic benefits for all our stake holders.
- We work in compliance with governmental legislation and follow QHSE standards and guidelines.
- We work together to create a safe and healthy workplace for our employees and our contractors.
- We apply security practices to protect people, property, products, processes and information, throughout the value chain.
- We protect the environment by preventing or minimizing the environmental impact due to our activities and products
- We encourage dialogue and report progress on our health, safety and environmental performance to our stakeholders

General Manager Cellulosic Specialties

Amersfoort, December 2009

Peter Gommers
