

REPORT 2021

AkzoNobel

Polar Pod partnership to push boundaries of scientific exploration

A pioneering expedition, which will send a manned oceanographic platform drifting around Antarctica, has brought AkzoNobel on board as exclusive paints and coatings partner. The Polar Pod will enable scientists and researchers to study the Antarctic Circumpolar Current, which has a major influence on the Earth's climate. AkzoNobel will support the 1,000-ton platform for the next five years, from project construction through to the completion of its three-year mission, which is expected to start in December 2023.

Our results at a glance

Highlights Q1 2021

- Revenue up 10% and 16% higher in constant currencies with strong growth in Asia
- ROS¹ increased to 13.6% (Q1 2020: 10.4%)
- €300 million share buyback completed on April 16, 2021; €1 billion share buyback starts April 27, 2021
- Acquisition of Titan Paints in Spain completed in March 2021

Q1 2021 (compared with Q1 2020)

- Revenue up 10% and 16% higher in constant currencies, with volumes up 16% and price up 2%, mainly due to strong end market demand. Compared with Q1 2019², revenue was up 10% in constant currencies
- Operating income up 62% at €303 million (2020: €187 million); OPI margin improved to 13.4% (2020: 9.1%)
- Adjusted operating income up 43% at €307 million (2020: €214 million) and excludes €4 million negative impact from identified items, mainly related to transformation initiatives (2020: €27 million negative identified items related to transformation initiatives)
- Net cash from operating activities improved by €129 million to an outflow of €31 million (2020: outflow of €160 million)
- Net income from total operations up 90% at €217 million (2020: €114 million)
- EPS from total operations up 95% at €1.15 (2020: €0.59); adjusted EPS from continuing operations up 66% at €1.18 (2020: €0.71)

¹ ROS is adjusted operating income as percentage of revenue; ROS excluding unallocated cost was reported in relation to the Winning together: 15 by 20 strategy and is no longer reported.

² Q1 2019 comparatives are included in this report to allow for proper comparison in light of the COVID-19 impact in 2020.

Outlook 2021

AkzoNobel targets to grow at least in line with its relevant markets. Trends differ per region and segment with raw material disruption and inflation expected, especially in Q2 and Q3. Margin management and cost discipline are in place to deliver 50 basis points increase in return on sales. The company targets a leverage ratio of 1-2 times net debt/EBITDA and commits to retain a strong investment grade credit rating.

Alternative performance measures (APM)

AkzoNobel uses APM adjustments to the IFRS measures to provide supplementary information on the reporting of the underlying developments of the business. A reconciliation of the alternative performance measures to the most directly comparable IFRS measures can be found in the tables on pages 12 and 13.

Financial highlights

Revenue

Q1 2021

Revenue was up 10% and 16% higher in constant currencies (compared with Q1 2019: up 10% in constant currencies) due to strong end market demand. Volumes were up 16%. Price was up 2% while price/mix was 1% lower overall due to geographic and segment mix.

- Decorative Paints revenue increased 23% and was up 31% in constant currencies, driven by 28% higher volumes, mainly due to continued strong demand. Price was up 4% while mix was 3% lower due to geographic mix. Acquisitions added 2%
- Performance Coatings revenue was up 3% and increased 8% in constant currencies. Revenue was positively impacted by 10% higher volumes. Price was up 1% while mix was 3% lower due to geographic and segment mix
- Other activities revenue mainly includes service revenue

Cost of sales

Raw material and other variable costs in the first quarter of 2021 increased €38 million, in addition to the impact of higher volumes, compared with the first quarter of 2020. The increase was mainly driven by raw material inflation and mix.

Acquisitions

In March 2021, the acquisition of Titan Paints in Spain was completed.

Paint the Future leads to investment in application technology from Qlayers

We've invested in pioneering coatings application technology from Qlayers – one of the winners in our 2019 Paint the Future startup challenge. Their innovative industrial system offers a fully automated solution that is safer, more consistent and faster than the manual coating processes currently being used. By eliminating overspray, it's a sustainable solution that also saves costs.

Financial highlights

Q1 2021

Operating income

Operating income increased 62% to €303 million (2020: €187 million), driven by significant volume increases and cost discipline. OPI margin improved to 13.4% (2020: 9.1%).

- Decorative Paints performance improved due to strong demand across all regions, with volumes up 28% compared with Q1 2020. ROS was up at 15.9% (2020: 8.5%)
- Performance Coatings operating income increased, mainly due to volume increases of 10%. ROS remained 14.7% (2020: 14.7%)
- Other activities improved €15 million to €38 million negative (2020: €53 million negative), mainly resulting from lower negative identified items

Adjusted operating income

Adjusted operating income was 43% higher at €307 million (2020: €214 million) and excludes identified items of €4 million negative, mainly related to transformation initiatives (2020: €27 million negative identified items relating to transformation initiatives). ROS¹ was up at 13.6% (2020: 10.4%).

Net financing income/(expenses)

Net financing expenses decreased to €8 million (2020: €13 million), mainly due to lower interest on provisions.

Income tax

The effective tax rate was 24.2% (2020: 29.8%, which included several non-recurring items). Excluding identified items, the effective tax rate in Q1 2021 was 24.2% (2020: 28.4%).

Net income

Net income attributable to shareholders was €217 million (2020: €114 million). Earnings per share from total operations increased to €1.15 (2020: €0.59). Adjusted earnings per share from continuing operations increased to €1.18 (2020: €0.71), including the impact of the share buyback programs.

¹ ROS is adjusted operating income as percentage of revenue; ROS excluding unallocated cost was reported in relation to the Winning together: 15 by 20 strategy and is no longer reported.

DIY made simple thanks to new Dulux range

With the UK firmly bitten by the DIY bug, we recently launched our new Dulux Simply Refresh range, which refreshes walls in a single coat. It's available in two carefully curated color collections – One Coat and Feature Wall – for both neutral and bold palettes. As well as removing the hassle from decorating, the new products will also help to save valuable time.

Decorative Paints

Highlights Q1 2021

- Revenue up 23% and increased 31% in constant currencies, driven by strong demand across all regions
- ROS up at 15.9% (2020: 8.5%)

Q1 2021

- Revenue up 23% and increased 31% in constant currencies (compared with Q1 2019: up 20% in constant currencies); volumes up 28%. Price up 4% and price/mix 1% higher overall. Acquisitions added 2%
- Operating income improved to €147 million (2020: €58 million) driven by volume growth and continued focus on cost control
- Adjusted operating income increased to €148 million (2020: €64 million)

Q1 2021

Revenue was up across all regions. Volumes were up 28%, while acquisitions added 2%. Price was up 4% while mix was 3% lower due to geographic mix.

Operating income increased to €147 million (2020: €58 million), driven by volume growth and continued focus on cost control.

Adjusted operating income increased to €148 million (2020: €64 million), and excludes identified items of €1 million negative. In 2020, adjusted operating income of €64 million excluded identified items of €6 million negative related to transformation initiatives. ROS was up at 15.9% (2020: 8.5%).

Europe, Middle East and Africa

Revenue in Q1 was up 21% and 24% higher in constant currencies (compared with Q1 2019: up 22% in constant currencies), due to continued strong demand, especially in the DIY segment.

South America

Revenue in Q1 was up 14% and 56% higher in constant currencies (compared with Q1 2019: up 62% in constant currencies), mainly driven by significant volume increases due to strong demand. Strong performance was driven by pricing initiatives and volume growth, offset by currency impact driven by the Brazilian real and Argentinian peso.

Asia

Revenue in Q1 was up 33% and increased 41% in constant currencies (compared with Q1 2019: up 4% in constant currencies). In 2020, revenues were impacted by lower demand due to COVID-19, particularly in China. Compared with the previous quarter, volumes continued to recover in South East Asia, driven by India, Malaysia and Pakistan.

Performance Coatings

Highlights Q1 2021

- Revenue up 3% and 8% higher in constant currencies, with strong growth in Powder Coatings and Industrial Coatings
- ROS remained 14.7% (2020: 14.7%)

Q1 2021

- Revenue was up 3% and 8% higher in constant currencies (compared with Q1 2019: up 5% in constant currencies), with 10% higher volumes. Price was up 1% while price/mix was 2% lower
- Operating income improved to €194 million (2020: €182 million) driven by volume growth; OPI margin up at 14.6% (2020: 14.1%)
- Adjusted operating income was up at €196 million (2020: €190 million)

Q1 2021

Revenue was up 3% and 8% higher in constant currencies. Volumes increased by 10%, especially in Powder Coatings and Industrial Coatings. Price was up 1% while price/mix was 2% lower overall as a result of geographic and segment mix, due to strong growth in Asia.

Operating income improved to €194 million (2020: €182 million), driven by volume growth.

Adjusted operating income increased to €196 million (2020: €190 million) and excludes identified items of €2 million negative, mainly related to transformation initiatives. In 2020, adjusted operating income of €190 million excluded identified items of €8 million negative, mainly related to transformation initiatives.

Powder Coatings

Revenue in Q1 was up 13% and 19% higher in constant currencies (compared with Q1 2019: up 12% in constant currencies) with significantly higher volumes compared with the first quarter of 2020, especially in Asia. This was driven by both demand and market share growth, as well as rebound from the impact of COVID-19.

Marine and Protective Coatings

Revenue in Q1 was 7% lower and 2% lower in constant currencies (compared with Q1 2019: 4% lower in constant currencies). Marine and Protective Coatings continues to be impacted by lower demand and postponed projects, partly offset by strong growth in Yacht Coatings.

Automotive and Specialty Coatings

Revenue in Q1 was 4% lower while up 2% in constant currencies (compared with Q1 2019: equal in constant currencies), with volume growth offset by adverse currency and price/mix impacts. Demand was strong for consumer electronics. Aerospace is showing early signs of recovery with sequential improving demand.

Industrial Coatings

Revenue in Q1 was up 8% and 14% higher in constant currencies (compared with Q1 2019: up 11% in constant currencies), as significant volume growth was partly offset by adverse currency impacts. Demand for coil and packaging coatings continued its strong momentum in all regions.

Leading the charge for e-mobility powder coatings

As global demand for electric vehicles – and e-mobility in general – continues to accelerate, our Powder Coatings business has switched on to the growing needs of its customers by developing advanced technologies to help power the industry into the future. We now offer a dedicated powder coatings portfolio for manufacturers of electric vehicles and components, who are increasingly looking for world class solutions to help protect motors, battery systems and electrical storage units.

Shareholders' equity

Shareholders' equity increased from €5.7 billion at year-end 2020 to €5.9 billion at March 31, 2021, mainly due to the net effect of:

- Profit for the period of €217 million
- Currency effects of €210 million positive (including taxes)
- Share repurchase of €236 million (including taxes)
- Post-retirement benefits of €51 million negative (including taxes)

Dividend

The company's dividend policy is to pay a stable to rising dividend. A final 2020 dividend of €1.52 per common share is proposed for approval at the AGM, which means a total 2020 dividend of €1.95 per common share (2019: €1.90).

Please refer to the final page of this report for the dividend payment dates.

Outstanding share capital

The outstanding share capital was 190.8 million common shares at the end of March 2021. This included 3.1 million shares acquired in the share buyback program, which had not yet been cancelled. The weighted average number of shares in Q1 2021 was 188.8 million. This weighted average number of shares excludes shares bought back not yet cancelled and were the basis for the calculation of earnings per share in Q1 2021.

On October 21, 2020, a €300 million share buyback program was announced. This program was completed on April 16, 2021. A total of 3.4 million shares have been acquired and will be cancelled.

On February 16, 2021, a further €1 billion share buyback program was announced, to be completed in Q1 2022. This program will be started on April 27, 2021.

Cash flows and net debt

Net cash from operating activities in Q1 2021 resulted in an outflow of €31 million (2020: outflow of €160 million). This decrease in outflow was mainly driven by increased profit for the period and a lower outflow from changes in working capital, which was partly offset by higher outflow from changes in other provisions.

Net cash from investing activities in Q1 2021 resulted in an outflow of €170 million (2020: inflow of €102 million). Net cash from investing activities in Q1 2021 was mainly related to an outflow for capital expenditures (€57 million, including investments in growth) and an outflow for acquisitions and divestments (net outflow of €65 million).

Net cash from financing activities in Q1 2021 resulted in an outflow of €240 million (2020: outflow of €395 million). Net cash from financing activities mainly related to an outflow for the share buyback (€209 million) and changes from borrowings (outflow of €28 million).

At March 31, 2021, net debt was €1,408 million versus €1,034 million at year-end 2020. The increase in net debt was mainly due to the share buyback (€209 million), an outflow of the net cash from operating activities (€31 million), capital expenditures (€57 million) and movements from acquisitions and divestments (€65 million). The net debt/EBITDA leverage ratio at March 31, 2021, was 1.0 (March 31, 2020: 1.2).

Free cash flows

The cash generation in Q1 2021 improved compared with Q1 2020, mainly due to higher EBITDA and lower outflow from changes in working capital.

Free cash flow	(206)	(88)

Invested capital

Invested capital at March 31, 2021, totaled €6.8 billion, up €0.4 billion from year-end 2020, mainly due to higher operating working capital (trade) as a result of seasonality.

Operating working capital (trade)

Operating working capital (trade) as percentage of revenue decreased to 13.4% in Q1 2021, compared with 16.5% in Q1 2020, mainly due to higher trade payables which reflect increased demand and production levels.

Pension

The net balance sheet position (according to IAS19) of the pension plans at the end of Q1 2021 was a surplus of €1.0 billion (year-end 2020: surplus of €1.0 billion). The development during the quarter was the result of the net effect of:

- Higher discount rates in key countries
- Top-up contributions into funds
- Foreign exchange translation gains

Offset by:

- Lower plan asset returns in key countries
- Higher inflation rates in key countries

Workforce

At March 31, 2021, the number of people employed was 32,700 (December 31, 2020: 32,200). Acquisitions in Q1 2021 added around 400 people.

Invested capital

Proudly certified as a Top Employer 2021

Engaging programs secure Top Employer status

Our continued focus on engagement and employee well-being has seen us receive Top Employer recertification in five key markets – the UK, China, Brazil, the US and the Netherlands. It marks the second year in a row for the Netherlands and the US, the fifth year running for Brazil, the eighth consecutive year for China and the ninth for the UK. Throughout our ongoing transformation journey, the company's success in retaining – and increasing – Top Employer status has been based on prioritizing organizational health.

Notes to the condensed consolidated financial statements

General information

Akzo Nobel N.V. is a public limited liability company headquartered in Amsterdam, the Netherlands. The interim condensed consolidated financial statements include the financial statements of Akzo Nobel N.V. and its consolidated subsidiaries (in this document referred to as "AkzoNobel", "Group" or "the company").

The company was incorporated under the laws of the Netherlands and is listed on Euronext Amsterdam.

Basis of preparation

All quarterly figures are unaudited. The interim condensed consolidated financial statements were discussed and approved by the Board of Management and the Supervisory Board. These condensed financial statements have been authorized for issue. The interim condensed consolidated financial statements should be read in conjunction with AkzoNobel's consolidated financial statements in the 2020 annual report as published on March 10, 2021. The financial statements are proposed for adoption by the Annual General Meeting of shareholders on April 22, 2021. In accordance with Article 393 of Book 2 of the Dutch Civil Code, PricewaterhouseCoopers Accountants N.V. has issued an unqualified auditor's opinion on these annual financial statements.

Accounting policies

The significant accounting policies applied in the condensed consolidated interim financial statements are consistent with those applied in AkzoNobel's consolidated financial statements for the year ended December 31, 2020, except for IFRS standards and interpretations becoming effective on January 1, 2021. This includes among others amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 "Interest Rate Benchmark Reform – Phase 2". These changes have been assessed for their potential impact and do not have a material effect on AkzoNobel's consolidated financial statements.

The interim condensed consolidated financial statements have been prepared in accordance with IAS 34 "Interim financial reporting".

Seasonality

Revenue and results in Decorative Paints are impacted by seasonal influences. Revenue and profitability tend to be higher in the second and third quarter of the year as weather conditions determine whether paints and coatings can be applied. In Performance Coatings, revenue and profitability vary, among others, with building patterns from original equipment manufacturers.

Other activities

In Other activities, we report activities which are not allocated to a particular segment.

Related parties

AkzoNobel purchased and sold goods and services to various related parties in which we hold a 50% or less equity interest (associates and joint ventures). We consider the members of the Executive Committee and the Supervisory Board to be the key management personnel as defined in IAS 24 "Related parties".

In the ordinary course of business, we have transactions with various organizations with which certain of the members of the Supervisory Board and Executive Committee are associated. All related party transactions were conducted at arm's length with terms comparable with third party transactions.

Revenue disaggregation

The table below reflects the disaggregation of revenue. Additional disaggregation of revenue is included on the respective pages of Decorative Paints and Performance Coatings.

Revenue disaggregation*

First quarter

in € millions	Decorative Paints	Performance Coatings	Other	Total
Primary geographical markets				
The Netherlands	60	25	1	86
Other EMEA countries	536	549	–	1,085
North Asia	104	270	–	374
South Asia Pacific	133	153	–	286
North America	–	278	–	278
South America	97	57	–	154
Total	930	1,332	1	2,263

Goods transferred at a point in time	918	1,285	–	2,203
Services transferred over time	12	47	1	60
Total	930	1,332	1	2,263

* The regional split has been changed compared to previous quarters to align to our new internal regional structure.

Alternative performance measures

In presenting and discussing AkzoNobel's operating results, management uses certain alternative performance measures (APM) not defined by IFRS, which exclude the so-called identified items that are generated outside the normal course of business. Identified items are special charges and benefits, results on acquisitions and divestments, major restructuring and impairment charges, and charges and benefits related to major legal, environmental and tax cases. Alternative performance measures should not be viewed in isolation as alternatives to the equivalent IFRS measures and should be used as supplementary information in conjunction with the most directly comparable IFRS measures. Alternative performance measures do not have a standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other companies. Where a non-financial measure is used to calculate an operational or statistical ratio, this is also considered an APM.

AkzoNobel uses APM adjustments to the IFRS measures to provide supplementary information on the reporting of the underlying developments of the business. A reconciliation of the alternative performance measures to the most directly comparable IFRS measures can be found in the tables on this page and the next page.

ROS and OPI margin are used as performance measures. ROS is adjusted operating income as percentage of revenue; ROS excluding unallocated cost was reported in relation to the Winning together: 15 by 20 strategy and is no longer reported. OPI margin is operating income as percentage of revenue. The calculations are based on the revenue as disclosed in the revenue table on page 3.

Outlook 2021

AkzoNobel targets to grow at least in line with its relevant markets. Trends differ per region and segment with raw material disruption and inflation expected, especially in Q2 and Q3. Margin management and cost discipline are in place to deliver 50 basis points increase in return on sales. The company targets a leverage ratio of 1-2 times net debt/EBITDA and commits to retain a strong investment grade credit rating.

Glossary

Adjusted earnings per share are the basic earnings per share from operations, excluding identified items and taxes thereon.

Adjusted EBITDA is operating income excluding depreciation, amortization and identified items.

Adjusted EBITDA margin is adjusted EBITDA as percentage of revenue.

Adjusted operating income is operating income excluding identified items.

Capital expenditures is the total of investments in property, plant and equipment and investments in intangible assets.

Comprehensive income is the change in equity during a period resulting from transactions and other events other than those changes resulting from transactions with shareholders in their capacity as shareholders.

Constant currencies calculations exclude the impact of changes in foreign exchange rates.

EBITDA is operating income excluding depreciation and amortization.

EBITDA margin is EBITDA as percentage of revenue.

EMEA is Europe, Middle East and Africa.

Identified items are special charges and benefits, results on acquisitions and divestments, major restructuring and impairment charges, and charges and benefits related to major legal, environmental and tax cases.

Invested capital is total assets (excluding cash and cash equivalents, short-term investments, investments in associates, the receivable from pension funds in an asset position, assets held for sale) less current income tax payable, deferred tax liabilities and trade and other payables.

Leverage ratio is calculated as net debt divided by EBITDA, which is calculated as the total of the last 12 months.

Net debt is defined as long-term borrowings plus short-term borrowings less cash and cash equivalents and short-term investments.

North America includes Mexico.

North Asia includes China, Japan, Mongolia and South Korea.

Operating income is defined as income excluding net financing expenses, results from associates and joint ventures, income tax and results from discontinued operations. Operating income includes the share of non-controlling interests. Operating income includes identified items to the extent these relate to lines included in operating income.

Operating working capital (trade) is defined as the sum of inventories, trade receivables and trade payables. When expressed as a ratio, operating working capital is measured against four times last quarter revenue.

OPI margin is operating income as percentage of revenue.

ROI is adjusted operating income of the last 12 months as percentage of average invested capital.

ROS is adjusted operating income as percentage of revenue.
Note: ROS excluding unallocated cost was reported in relation to the Winning together: 15 by 20 strategy and is no longer reported.

SG&A costs includes selling and distribution expenses, general and administrative expenses and research, development and innovation expenses.

South America excludes Mexico.

South Asia Pacific includes South East Asia and Asia Pacific.

Safe harbor statement

This report contains statements which address such key issues as AkzoNobel's growth strategy, future financial results, market positions, product development, products in the pipeline and product approvals. Such statements should be carefully considered, and it should be understood that many factors could cause forecast and actual results to differ from these statements. These factors include, but are not limited to, price fluctuations, currency fluctuations, developments in raw material and personnel costs, pensions, physical and environmental risks, legal issues, and legislative, fiscal, and other regulatory measures, as well as significant market disruptions such as the impact of pandemics. Stated competitive positions are based on management estimates supported by information provided by specialized external agencies. For a more comprehensive discussion of the risk factors affecting our business, please see our latest annual report.

Brand and trademarks

In this report, reference is made to brands and trademarks owned by, or licensed to, AkzoNobel. Unauthorized use of these is strictly prohibited.
