### Investor update Q1 2021

April 21, 2021

### AkzoNobel

#### Polar Pod partnership to push boundaries of scientific exploration

A pioneering expedition which will send a manned oceanographic platform drifting around Antarctica has brought AkzoNobel on board as exclusive paints and coatings partner. The Polar Pod will enable scientists and researchers to study the Antarctic Circumpolar Current, which has a major influence on the Earth's climate. AkzoNobel will support the 1,000-ton platform for the next five years, from project construction through to the completion of its three-year mission, which is expected to start in December 2023.

### AkzoNobel

## Agenda Key highlights **Financial review** Concluding remarks Q&A Alternative performance measures (APM)

AkzoNobel uses APM adjustments to the IFRS measures to provide supplementary information on the reporting of the underlying developments of the business. A reconciliation of the alternative performance measures to the most directly comparable IFRS measures can be found in the appendix to this presentation.

This Investor Update covers the highlights for the quarter. We recommend to read the Investor Update in combination with the AkzoNobel Q1 2021 Report. The Q1 2021 Report provides additional information, including the IAS34 condensed consolidated financial statements.

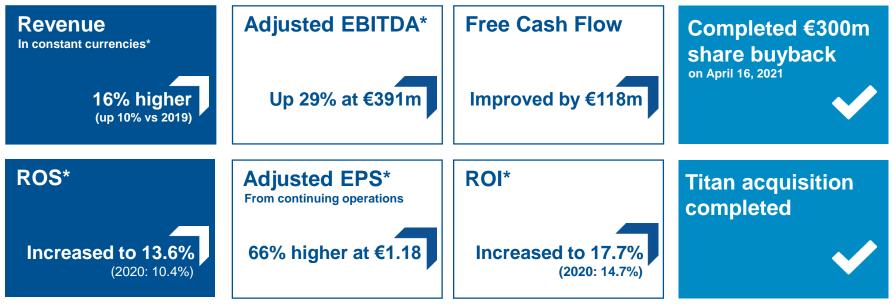

## **Key highlights**

Investor update | Q1 2021 3

### Strong growth and profitability in Q1

### **AkzoNobel**

### Powerful start to Grow & Deliver strategy AkzoNobel

POR

- Growth for third consecutive quarter (volumes up 8% vs. 2019)
- Closed acquisition of Titan
  Paints in Spain; recognized for environmental performance
- Strong growth for Powder Coatings; dedicated portfolio for Electric Vehicles

- Strong focus on margin management
- Now 100% renewable electricity for France, and 11 other countries
- Major ERP integration completed in China

People. Planet. Paint.

## Focus on growth underpinned by robust end market demand

### Continuing to invest in growth...

We now offer a dedicated powder coatings portfolio for electric vehicles alongside a team of technical specialists to provide expert assistance

Our new R&D facility in Como, features an application lab, process lab, and analytical and testing lab and is dedicat to delivering low cure powder coatings

The acquisition of Stahl Powder Coatings offers both UV and thermally curing powders enabling us to penetrate the low cure (80-100°C) domain, opening up new markets like plywood and thermoplastics

We are expanding our business in architectural applications. The Varso Tower in Warsaw features a sleek black exterior created by using our Interpon D2525 super-durable topcoat

## **Concluding remarks**

### AkzoNobel

### **Q1 Highlights**

- Revenue up 10% and 16% higher in constant currencies with strong growth in Asia
- **ROS** increased to 13.6% (Q1 2020: 10.4%)
- Solution Stare Start Start
- Acquisition of Titan Paints in Spain completed in March 2021

### Outlook

AkzoNobel targets to grow at least in line with its relevant markets.

Trends differ per region and segment with raw material disruption and inflation expected, especially in Q2 and Q3. Margin management and cost discipline are in place to deliver 50 basis points increase in return on sales.

The company targets a leverage ratio of 1-2 times net debt/EBITDA and commits to retain a strong investment grade credit rating.

### **Upcoming events**

## A focused, high performing, paints and coatings company

### **AkzoNobel**

- Strong global brands
- Leading positions in large and attractive markets
- Balanced geographic exposure: ~50% revenue from emerging markets
- Well positioned to accelerate growth and enhance profitability
- Significant returns to shareholders

### Disclaimer/forward-looking statements

### **AkzoNobel**

This presentation does not constitute or form a part of any offer to sell, or any invitation or other solicitation of any offer, to buy or subscribe for any securities in the United States or any other jurisdiction.

Some statements in this presentation are 'forward-looking statements'. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that may occur in the future. These forward-looking statements involve known and unknown risks, uncertainties and other factors that are outside of our control and impossible to predict and may cause actual results to differ materially from any future results expressed or implied. These forward-looking statements are based on current expectations, estimates, forecasts, analyses and projections about the industries in which we operate and management's beliefs and assumptions about possible future events. You are cautioned not to put undue reliance on these forward-looking statements, which only speak as of the date of this presentation and are neither predictions nor guarantees of possible future events or circumstances. We do not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

This report contains statements which address such key issues as AkzoNobel's growth strategy, future financial results, market positions, product development, products in the pipeline and product approvals. Such statements should be carefully considered, and it should be under-stood that many factors could cause forecast and actual results to differ from these statements. These factors include, but are not limited to, price fluctuations, currency fluctuations, developments in raw material and personnel costs, pensions, physical and environmental risks, legal issues, and legislative, fiscal, and other regulatory measures, as well as significant market disruptions such as the impact of pandemics. Stated competitive positions are based on management estimates supported by information provided by specialized external agencies. For a more comprehensive discussion of the risk factors affecting our business, please see our latest annual report, a copy of which can be found on the company's corporate website <u>www.akzonobel.com</u>

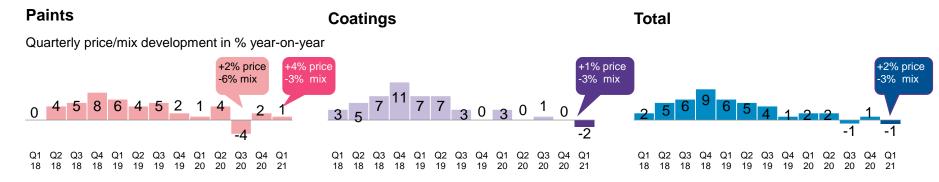

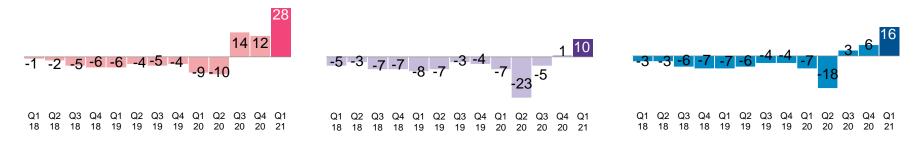

## Appendix

Investor update | Q1 2021 21

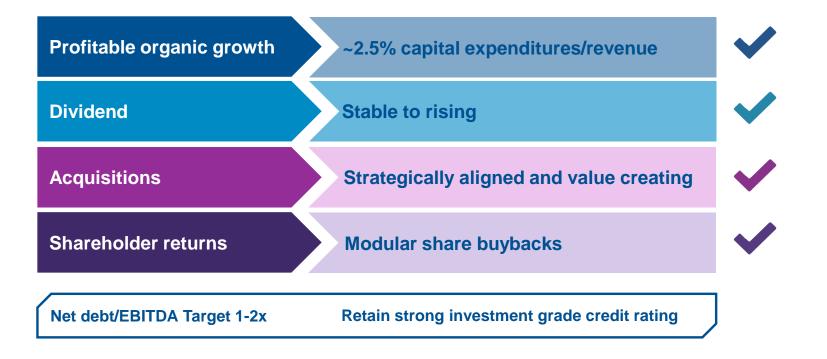

## Delivered growth for third quarter in a row; AkzoNobel Q1 revenue up 16% in constant currencies

Quarterly volume\* development in % year-on-year

### Delivering on capital allocation priorities AkzoNobel

### Performance measures and assumptions AkzoNobel

#### **Definitions of alternative performance measures**

- Adjusted earnings per share are the basic earnings per share from operations, excluding identified items and taxes thereon
- Adjusted operating income is operating income excluding identified items
- Adjusted EBITDA is operating income excluding depreciation, amortization and identified items
- **Constant currencies** calculations exclude the impact of changes in foreign exchange rates
- Identified items are special charges and benefits, results on acquisitions and divestments, major restructuring and impairment charges, and charges and benefits related to major legal, environmental and tax cases
- ROI is adjusted operating income of the last 12 months as percentage of average invested capital
- ROS is adjusted operating income as percentage of revenue; ROS excluding unallocated cost was reported in relation to the Winning together: 15 by 20 strategy and is no longer reported
- Leverage ratio is calculated as net debt divided by EBITDA, which is calculated as the total of the last 12 months
- Operating working capital (Trade) is defined as the sum of inventories, trade receivables and trade payables. When expressed as a ratio, operating working capital is measured against four times last quarter revenue

#### Assumptions for 2021

- **T** Revenue growth  $\geq$  market CAGR
- **¬** ROS<sup>∗</sup> +50bps CAGR
- Other activities €140-180 million
- Effective tax rate ~27% (cash tax rate ~20%)
- Capital expenditures ≥€250 million
- Dividend policy "stable to rising"
- Leverage 1-2x net debt/EBITDA
