## Preserving sporting history

This is the impressive Centenario Stadium in Uruguay, which was built to host the first-ever FIFA World Cup in 1930. The stadium has just been renovated and our loca brand provided a valuable assist by supplying 12,000 liters of paint. An important consideration was using colors that respected the essence of the original project by arch tect Juan Antonio-Scasso. As well as coating exteriors and the stands, our products were also used in the changing rooms, the tunnel and the interior warm-up areas. AkzoNobel

# Outlook

AkzoNobel targets to grow at or above its relevant markets, in line with its Grow & Deliver strategy. Trends differ per region and segment, while raw material cost inflation and supply constraints are expected to gradually ease by mid-2022. Plans are in place to deliver the €2 billion adjusted EBITDA target for 2023, and an average annual 50 basis points increase in return on sales over the period 2021-2023. AkzoNobel targets a leverage ratio of 1-2 times net debt/EBITDA and commits to retain a strong investment grade credit rating.

## Alternative performance measures (APM)

AkzoNobel uses APM adjustments to IFRS measures to provide supplementary information on the reporting of the underlying developments of the business. A reconciliation of the alternative performance measures to the most directly comparable IFRS measures can be found in the tables on pages 16 and 17.

Leading the way in sustainability

In 2021, we became the first paints and coatings company to receive official validation for setting science-based sustainability targets. The commitment we've made – a 50% carbon reduction by 2030 (2018 baseline) – covers the full value chain and is aligned with the  $1.5^{\circ}$ C pathway in the Paris agreement. The validation was confirmed just a few weeks before we became one of the first recipients of the Terra Carta Seal, a major new sustainability award launched at COP26. We were the only paints and coatings company to receive the honor.

# RESPONSIBLE MICA INITIATIVE

#### Membership of Responsible Mica Initiative formalized

We formalized our membership of the Responsible Mica Initiative (RMI), having been one of the founding members when it was launched in 2017. Used in a wide range of industries, mica minerals are mined extensively in India, where a variety of factors contribute to poor working conditions, including the use of child labor. The RMI's mission is to establish responsible and sustainable mica supply chains that are free of child labor. Following the RMI's pilot year, we continued to focus on the issue and a commitment was made to conduct serious due diligence and look for creative ways to contribute to the initiative – which has now resulted in full membership.

#### Summary of financial outcomes

Fourth guarter

# Financial highlights

#### Revenue Q4 2021

Pricing up 12.5%; December pricing up 14%. Revenue was 9% higher, and 7% higher in constant currencies.

- Decorative Paints pricing up 10%. Revenue was 5% higher and 4% higher in constant currencies. Volumes were 8% lower, mainly due to normalization of seasonality in the DIY segment in EMEA. Volumes were up 4% compared with Q4 2019
- Performance Coatings pricing up 14%. Revenue was 11% higher and 9% higher in constant currencies. Volumes were 5% lower, mainly due to continued supply constraints, especially in North America. Volumes were 4% lower compared with Q4 2019

# Full-year 2021

Pricing up 7%. Revenue was 12% higher, and 14% higher in constant currencies. Volumes were 7% higher, mainly due to the impact of the recovery from COVID-19 on end market demand.

- Decorative Paints pricing up 6%. Revenue up 12% and 13% higher in constant currencies. Volumes up 6%, mainly due to higher end market demand
- Performance Coatings pricing up 8%. Revenue was 13% higher and 15% higher in constant currencies. Volumes were 8% higher, mainly due to end market demand recovery in all segments

# Cost of sales

Raw material and other variable costs in the fourth quarter of 2021 increased €325 million, adjusted for the impact of lower volumes, compared with the fourth quarter of 2020. For the full-year 2021, this number amounts to €769 million. The increase was mainly driven by raw material inflation, which is expected to gradually ease by mid-2022.

# Acquisitions

In March 2021, the acquisition of Titan Paints in Spain was completed, strengthening our paints business and footprint in Spain. In June 2021, the intended acquisition of Colombia-based paints and coatings company Grupo Orbis was announced. The acquisition is expected to be completed in the first guarter of 2022.

## Q4 2021

#### Operating income

Operating income at €205 million (2020: €243 million) as pricing initiatives were more than offset by significant raw material cost impact and lower volumes. Operating income includes negative identified items of €4 million, mainly related to transformation initiatives (2020: €51 million negative identified items relating to transformation initiatives). OPI margin at 8.5% (2020: 11.0%).

- Decorative Paints operating income decreased, mainly due to significant raw material cost increases and 8% lower volumes due to normalization of seasonality in the DIY segment in EMEA, partly offset by pricing initiatives. OPI margin at 11.4% (2020: 13.5%)
- Performance Coatings delivered significantly higher pricing, with prices up 14% compared with Q4 2020. Volumes 5% lower, as Performance Coatings continues to be heavily impacted by raw material cost inflation and supply constraints. OPI margin at 9.4% (2020: 16.5%)
- Other activities improved €54 million to €40 million negative (2020: €94 million negative), mainly as a result of transformation costs in 2020

#### Adjusted operating income

Adjusted operating income at €209 million (2020: €294 million). ROS<sup>1</sup> at 8.7% (2020: 13.3%).

# Full-year 2021

## Operating income

Operating income was up 16% at €1,118 million (2020: €963 million). Significant price increases and volume increases contributed to offset raw material cost inflation and supply constraints. Operating income further includes net positive identified items of €26 million, mainly related to gains from the Brazil ICMS case and UK pensions past service credit (refer to page 6 for further details), partly offset by transformation initiatives (2020: €136 million negative identified items, mainly relating to transformation initiatives). OPI margin improved to 11.7% (2020: 11.3%).

- Decorative Paints performance improved, mainly due to strong demand across all regions and one-off gains, with volumes up 6% compared with full-year 2020. OPI margin was up at 16.1% (2020: 15.5%)
- Performance Coatings volumes up 8%. Operating income decreased, mainly due to higher raw material prices. OPI margin at 11.6% (2020: 13.4%)
- Other activities improved €81 million to €172 million negative (2020: €253 million negative), mainly resulting from lower negative identified items

#### Adjusted operating income

Adjusted operating income was 1% lower at €1,092 million (2020: €1,099 million). ROS<sup>1</sup> at 11.4% (2020: 12.9%).

#### Net financing income/(expenses) (full-year)

Net financing expenses decreased by €30 million, mainly due to oneoff interest income from the Brazil ICMS case, refer to below description on identified items for further details.

#### Income tax (full-year)

The effective tax rate was 22.3% (2020: 26.2%). The decrease compared with the previous year is mainly related to the impact from the Brazil ICMS and UK ACT cases (refer to below description on identified items), in combination with a net re-recognition of deferred tax assets. All of these were booked as an identified item. Excluding identified items, the effective tax rate in 2021 was 24.9% (2020: 25.6%).

#### Net income (full-year)

Net income attributable to shareholders was €829 million (2020: €630 million). Earnings per share from total operations increased to €4.48 (2020: €3.29), including the impact of share buyback programs.

#### Identified items (full-year)

Besides transformation and acquisition-related costs, 2021 identified items include the components listed below.

#### Brazil state tax on goods and services (ICMS)

In May 2021, the Brazilian Supreme Court (STF) recognized the right to deduct state tax on goods and services (ICMS) from the calculation basis of the Social Integration Program-PIS (Programa de Integração Social) and the Financing of Social Security-COFINS (Contribuição para Financiamento da Seguridade Social).

This STF decision impacts a multi-year period prior to 2018. As a result, a full-year net gain of €64 million was recognized in net income, of which €42 million in Other results (in operating income), €28 million in interest income, €14 million negative in income tax and net €8 million in discontinued operations.

#### UK pensions past service credit

Following a court decision in April 2021, which allows the amendment of the scheme documentation of one of the company's UK pension funds, a gain of €23 million was recognized in Other results (in operating income) in 2021.

#### UK Advanced Corporation Tax (ACT)

On constitute in come to most income

In July 2021, the UK Supreme Court issued a further decision in a group litigation case the company participates in ("Franked Investment Income"; filed in 2003). The company assessed the consequences of this judgement and performed a further file review which, taking into account legal advice, resulted in the recognition of a net tax benefit of €29 million.

# **Decorative Paints**

# Q4 2021

- Pricing up 10%. Revenue up 5% and 4% higher in constant currencies (compared with Q4 2019: up 17% in constant currencies)
- Volumes were 8% lower due to normalization of seasonality in the DIY segment in EMEA, while volumes were up 4% compared with Q4 2019. Acquisitions added 2%
- Operating income at €108 million (2020: €122 million) as price increases did not fully compensate for raw material cost inflation and lower volumes

# Full-year 2021

- Pricing up 6%. Revenue up 12% and 13% higher in constant currencies (compared with full-year 2019: up 16% in constant currencies)
- Volumes were 6% higher, while mix was 1% lower. Acquisitions added 2%
- Operating income up at €640 million (2020: €551 million) mainly as a result of pricing initiatives and higher volumes

## Q4 2021

Revenue was up 5% and 4% higher in constant currencies, with significant pricing initiatives partly offset by lower volumes due to normalization of end market demand, especially in EMEA. Volumes up 4% compared with Q4 2019.

Operating income of €108 million (2020: €122 million) was adversely impacted by raw material cost inflation and lower volumes, partly offset by pricing initiatives. Operating income does not include net identified items. In 2020, operating income included €4 million identified items related to transformation initiatives.

Adjusted operating income at  $\in$ 108 million (2020:  $\in$ 126 million) and ROS at 11.4% (2020: 14.0%).

## Full-year 2021

Revenue was up 12% and 13% higher in constant currencies, driven by 6% price increases and 6% higher volumes, with Asia significantly up compared with 2020.

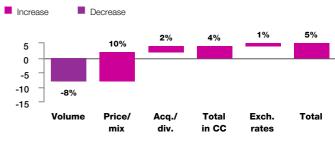

Operating income of €640 million (2020: €551 million) was supported by pricing initiatives and higher volumes, partly offset by raw material cost inflation. Operating income includes €42 million net positive identified items, mainly related to one-off gains (refer to page 6), partly offset by transformation initiatives. In 2020, operating income included €22 million negative identified items related to transformation initiatives.

Adjusted operating income higher at €598 million (2020: €573 million) and ROS at 15.0% (2020: 16.1%).

#### Europe, Middle East and Africa

Revenue in Q4 was flat and 3% lower in constant currencies (compared with Q4 2019: up 12% in constant currencies). Pricing initiatives were offset by lower volumes as a result of normalizing market demand in the DIY segment. Volumes were flat when comparing with Q4 2019.

Revenue for the full-year was 8% higher (compared with 2019, 16% higher), with revenue growth supported by organic volume growth, pricing initiatives and the Titan Paints acquisition.

#### South America

Revenue in Q4 was 8% higher and up 18% in constant currencies (compared with Q4 2019: up 67% in constant currencies), driven by pricing initiatives and partly offset by lower volumes due to supply constraints, especially in Brazil. Volumes were up 6% when comparing with Q4 2019.

Revenue for the full-year was 20% higher and up 39% in constant currencies (compared with 2019, 64% higher), resulting from strong pricing initiatives and higher volumes.

#### Asia

Revenue in Q4 was 14% higher and up 9% in constant currencies (compared with Q4 2019: 11% higher in constant currencies). Pricing initiatives were partly offset by lower volumes. South East Asia showed strong growth towards the end of the quarter, while both India and Indonesia showed strong growth in the retail segment. For China, revenue was up, supported by volume growth in the retail segment, although offset by the project segment. Volumes were up 4% when comparing with Q4 2019.

Revenue for the full-year was 17% higher (compared with 2019, 2% higher) as a result of pricing initiatives and volume growth.

#### Youthful energy on display in Indonesia

As part of our global "Let's Colour" program, we teamed up with a community of mural artists in Bandung, Indonesia, to paint the walls of the Saparua Sports Center. Staged to mark Youth Pledge Day, the event was designed to encourage young people to demonstrate their creativity and positive spirit. The company donated 1,300 liters of Dulux paint for the project.

#### Protecting a record breaker

This is the hugely impressive Ain Dubai, the world's highest and largest Ferris wheel. It's now officially open to visitors, who get a stunning 360° view from its 48 passenger capsules. Measuring a dizzying 250 meters and featuring more than 9,000 tons of steel, we were sole supplier of protective coatings for the massive structure. The specification – from our International brand – is designed to deliver maximum protection, as well as offering outstanding color and gloss retention.

#### Cash flows and net debt

Net cash from operating activities in Q4 2021 resulted in an inflow of €178 million (2020: inflow of €615 million). This decrease in inflow was mainly driven by changes in working capital and changes in other provisions, partly offset by increased profit for the quarter.

Net cash from investing activities in Q4 2021 resulted in an outflow of €129 million (2020: outflow of €268 million). Net cash from investing activities in Q4 2021 was mainly related to an outflow for capital expenditures (€99 million, including investments in growth).

Net cash from financing activities in Q4 2021 resulted in an inflow of €31 million (2020: outflow of €221 million). Net cash from financing activities mainly related to an outflow for the share buyback (€344 million) and an outflow for dividends (€90 million), offset by changes from borrowings (inflow of €465 million).

At December 31, 2021, net debt was €2,340 million versus €1,034 million at year-end 2020. The increase in net debt was mainly due to share buybacks (€1,135 million), dividend paid (€391 million) and capital expenditures (€288 million), offset by net cash generated from operating activities (€605 million). The net debt/EBITDA leverage ratio at December 31, 2021, was 1.6 (December 31, 2020: 0.8).

#### Free cash flows

The cash generation in Q4 2021 was lower compared with Q4 2020, mainly due to changes in working capital, other changes in provisions and lower EBITDA for the quarter.

## Invested capital

Invested capital at December 31, 2021, totaled  $\in$ 7.1 billion, up  $\in$ 0.7 billion from year-end 2020. This increase was mainly caused by higher operating working capital (trade) and investments in non-current assets.

## Operating working capital (Trade)

Operating working capital (trade) was €1.2 billion at December 31, 2021 (December 31, 2020: €0.9 billion). Operating working capital (trade) as percentage of revenue was 13.0% in Q4 2021, compared with 9.9% in Q4 2020. This increase in operating working capital (trade) as a percentage of revenue was mainly due to the increase in raw material prices.

#### Pension

The net balance sheet position (according to IAS19) of the pension plans at the end of Q4 2021 was a surplus of  $\in 1.1$  billion (year-end 2020: surplus of  $\in 1.0$  billion). The development during 2021 was the result of the net effect of:

- Higher discount rates in key countries
- Top-up contributions into funds
- Foreign exchange translation gains Offset by:
- Higher inflation rates in key countries
- Lower plan asset returns in key countries

## Workforce

At December 31, 2021, the number of people employed was 32,800 (December 31, 2020: 32,200). Acquisitions in 2021 added around 400 people.

#### World's brightest startups join Paint the Future bootcamp Our latest Paint the Future global startup challenge has invited 10 finalists to participate in a three-day bootcamp and finals event due to take place in Amsterdam in March 2022. They'll meet our experts face-to-face to explore potential collaborations together. The jury-selected winners will be announced during the event's closing ceremony. They will receive a prestigious Paint the Future award and a collaboration agreement to work together with AkzoNobel on sustainable business opportunities.

# Notes to the condensed consolidated financial statements

#### **General information**

Akzo Nobel N.V. is a public limited liability company headquartered in Amsterdam, the Netherlands. The interim condensed consolidated financial statements include the financial statements of Akzo Nobel N.V. and its consolidated subsidiaries (in this document referred to as "AkzoNobel", "Group" or "the company").

The company was incorporated under the laws of the Netherlands and is listed on Euronext Amsterdam.

#### **Basis of preparation**

All figures in this report are unaudited. The interim condensed consolidated financial statements were discussed and approved by the Board of Management and the Supervisory Board. These condensed financial statements have been authorized for issue. The full-year 2021 numbers included in the condensed consolidated financial statements in this report are derived from the consolidated financial statements 2021. The consolidated financial statements have not yet been audited nor published by law, and still have to be adopted by the Annual General Meeting of shareholders. The consolidated financial statements will be published on March 2, 2022.

#### Accounting policies

The significant accounting policies applied in the condensed consolidated interim financial statements are consistent with those applied in AkzoNobel's consolidated financial statements for the year ended December 31, 2020, except for IFRS standards and interpretations becoming effective on January 1, 2021. This includes among others amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4, IFRS 16 "Interest Rate Benchmark Reform – Phase 2" and amendments to IFRS 16 "Covid-19-Related Rent Concessions beyond June 2021". These changes have been assessed for their potential impact and do not have a material effect on AkzoNobel's consolidated financial statements.

The interim condensed consolidated financial statements have been prepared in accordance with IAS 34 "Interim financial reporting".

#### Seasonality

Revenue and results in Decorative Paints are impacted by seasonal influences. Revenue and profitability tend to be higher in the second and third quarter of the year as weather conditions determine whether paints and coatings can be applied. In Performance Coatings, revenue and profitability vary, among others, with building patterns from original equipment manufacturers.

#### Other activities

In Other activities, we report activities which are not allocated to a particular segment.

#### Related parties

AkzoNobel purchased and sold goods and services to various related parties in which we hold a 50% or less equity interest (associates and joint ventures). We consider the members of the Executive Committee and the Supervisory Board to be the key management personnel as defined in IAS 24 "Related parties".

In the ordinary course of business, we have transactions with various organizations with which certain of the members of the Supervisory Board and Executive Committee are associated. All related party transactions were conducted at arm's length with terms comparable with third party transactions.

#### **Revenue disaggregation**

The table below reflects the disaggregation of revenue. Additional disaggregation of revenue is included on the respective pages of Decorative Paints and Performance Coatings.

#### Alternative performance measures

In presenting and discussing AkzoNobel's operating results, management uses certain alternative performance measures (APM) not defined by IFRS, which exclude the so-called identified items that are generated outside the normal course of business. Identified items are special charges and benefits, results on acquisitions and divestments, major restructuring and impairment charges, and charges and benefits related to major legal, environmental and tax cases. Alternative performance measures should not be viewed in isolation as alternatives to the equivalent IFRS measures and should be used as supplementary information in conjunction with the most directly comparable IFRS measures. Alternative performance measures do not have a standardized meaning under IFRS and therefore may not be comparable to similar measures presented by other companies. Where a non-financial measure is used to calculate an operational or statistical ratio, this is also considered an APM.

AkzoNobel uses APM adjustments to the IFRS measures to provide supplementary information on the reporting of the underlying developments of the business. A reconciliation of the alternative performance measures to the most directly comparable IFRS measures can be found in the tables on this page and the next page.

ROS and OPI margin are used as performance measures. ROS is adjusted operating income as percentage of revenue; ROS excluding unallocated cost was reported in relation to the Winning together: 15 by 20 strategy and is no longer reported. OPI margin is operating income as percentage of revenue. The calculations are based on the revenue as disclosed in the revenue table on page 3.

## Outlook

AkzoNobel targets to grow at or above its relevant markets, in line with its Grow & Deliver strategy. Trends differ per region and segment, while raw material cost inflation and supply constraints are expected to gradually ease by mid-2022. Plans are in place to deliver the €2 billion adjusted EBITDA target for 2023, and an average annual 50 basis points increase in return on sales over the period 2021-2023. AkzoNobel targets a leverage ratio of 1-2 times net debt/EBITDA and commits to retain a strong investment grade credit rating.

#### Endless powder coatings possibilities

Our new Interpon W range of innovative powder on wood coatings achieved its first commercial successes in 2021. Designed for heat-sensitive substrates (both indoors and outdoors), it's a smart system which enables a variety of heat-sensitive materials to be coated in a durable, sustainable and more efficient manner. Suitable for interior design, automotive and architecture, the product range also includes special solutions for anti-microbial surfaces and food contact.
